

October 2021

Dear Brethren,

It is amazing how much difference just a couple of months makes! The Lord has blessed this work with many new opportunities to serve Him in a short period of time. These blessings to serve could not happen without the help we receive from brethren like you!

### **Waverly, Tennessee**

In Waverly, Tennessee, flooding caused the death of at least twenty-two people with countless others losing their homes and other possessions. **These people needed help and fast!** Gary Bond, one of the Soaring for Souls pilots, volunteered his time and talents to take aerial video and pictures of the disaster. The video was then made available to the Churches of Christ Disaster Response Team (DRT) which allowed them to expedite their help to this disaster-ridden area!

### **Hurricane Ida**

Just one week after the flooding in Tennessee, Hurricane Ida made landfall as “the second most intense hurricane to strike the U.S. state of Louisiana on record.” Kasey Oakley, another Soaring for Souls pilot, was ready and able to take flight. This again helped to speed up relief efforts to these Americans in need.

We are extremely grateful to all our pilots willing to step up in these times of need. In fact, **the volunteer pilot base is growing** which means we can cover even more ground when

a disaster strikes. If you know of a Christian pilot interested in volunteering with us, please contact us through the website at [SoaringforSouls.com](http://SoaringforSouls.com).

### **A Campaign Season of Firsts**

We are quickly approaching the first American mission campaign to Davis City, Iowa on October 21st. For this exciting inaugural trip, we will be evangelizing the community, encouraging the local brethren, and preaching the gospel in hopes of reaching lost souls.

On December 6th, a group of us will be taking off (literally) for the first Bahamas mission campaign. We will be **helping to re-establish the church on Long Island**. A local man is one of the few remaining Christians on this island. He needs help encouraging others and evangelizing the area. We will be flying into Deadman's Key on this first international campaign. Please be praying for both campaigns and for the safety of everyone involved.

### **A Personal Note**

My family and I are excited to announce our move to Albany, Georgia later this month. This will allow us to work directly with our sponsoring eldership and to further streamline our efforts. We are truly thankful for these men and the entire Beattie Road congregation.

### **Your Help Matters in 2022**

Word is spreading and more Christians are getting excited about this new method of reaching the lost through aviation. Please pray the Lord continues to bless this work and that He is placed in front of everything we are doing together in His Kingdom!

We desperately need your help! Your gift makes a difference in the success of this work. **Please consider adding us to your monthly budget for 2022**. Are you able to help with campaign costs? We need \$1000 for each of the above campaigns. Even your small gifts can add up and impact more souls being reached with the precious gospel message.

**Support May Be Sent To:**

Beattie Road Church of Christ  
1731 Beattie Road  
Albany, GA 31721-2911  
Memo: Soaring for Souls

In His Service,

Brian Howard
