

January 2021

Dear Friend,

Happy New Year!

I love the fresh start of something new! Last year, through God's providential guidance Soaring for Souls was born! We also gained an overseeing church, a mission's partner, a new website, and a newly minted private pilot. We are eager to see how God will use each one of us, and you, to continue to bless His work in 2021.

If it is His will and with your help, we are planning to purchase a much-needed airplane this year. This will allow us to immediately go into the mission field. But we cannot do this without you! **Any amount you can give will help us reach the \$50,000 goal.**

The Lord has shown us an amazing need in the Bahamas! Continuing the work of a recently retired missionary pilot, our first mission is to establish a congregation on each of the 31 inhabited islands. A few of the islands already have a congregation and they continue to need outside help and encouragement. We will provide for that need, as well as conduct **evangelism seminars, local evangelism, leadership training, material distribution** and look for any other ways to spiritually enrich these souls.

The Bahamas are extremely vulnerable to hurricanes, the last major one completely flattening and flooding Great Abaco Island in 2019. We are planning to team up with disaster relief efforts within the brotherhood to bring aid to these places during times of crisis. This will open the door for communicating the gospel to these lost souls!

Please pray for the Lord's work! Bahamians are some of the friendliest and most loving people you will ever meet, but they need the truth. You can help! **Every dollar given to Soaring for Souls goes 100% into the work!** Will you consider adding us to your monthly budget. Or give a one-time gift today! We love you, and God loves you!

In His Service,

Brian Howard

PS: Make 2021 about reaching the lost!
